

BI4SME MEETING IN NICOSIA

The consortium met again!

The BI4SME's partnership usually meets online on a monthly basis. But, every six months the partners meet face-to-face in one of the partnership's countries. Last April the consortium met in Madrid, Spain, for the project's kick-off meeting. On October 9th and 10th, the team met face-to-face for the second time in Nicosia, Cyprus.

During this 2nd transnational meeting, the consortium discussed the following topics:

1. BI tools Comparative analysis and conclusions
2. Development of Competencies Framework
3. Framework of non-technical BI Expert for SMEs
4. Definition of concrete competencies per training pathway

Right now, the partnership is about to conclude the project's first result, a Baseline Knowledge Pack on #bitools. This meeting was key to discussing the final details to close this first result, which will be available soon. The consortium also set the next steps for the upcoming results and discussed the project's dissemination strategy.
